Child's Name _____

Class _____

Using Children's Images

Please see the below statements and circle your chosen response.

We will take photos and videos of school activities and put them on the schools website. Teachers will use photos/videos in their blogs about events and achievements. We sometimes want to use these images in our prospectus or other printed publications. Children's full names and other personal details will **never** be published and we have adopted national guidelines on this matter.

I am happy for my child's image to appear on the school website/blogs/printed publications

Y N

Occasionally we are visited by 3rd parties (e.g the Echo) who like to use images of our pupils for their own publications. Again, we follow strict guidelines about how these images are used.

I am happy for my child to appear in photos used by 3rd parties
